

Try to Identify Dead Woman.
The Board of Ambulance Service is trying to establish the identity of a woman who died in a Brooklyn hospital Feb. 8 after she was taken from No. 10 Putnam Avenue, a boarding house. She was known at the house as Quene M. Krenz, but no one there knew anything about her except she had spoken of having friends in the Bronx. She is described as between thirty and forty years old, short, with dark brown hair.

FIFTH AVENUE POLISH NOW NECESSARY AT BLACKWELL'S ISLAND

New Warden Adopts Beau Brummel Code of Manners at Workhouse Prison.

According to the State Commission of Prisons, the penitentiary and workhouse at Blackwell's Island are models of cleanliness, politeness, gal-

lantry and comfort. Incidentally, the report is a boost for John J. Murtha, the new Warden, and a criticism for Patrick Hayes, his predecessor.

In the old days "fade away" haircuts were in order on the island. That is, they used to cut as near to the bone as possible. Now, says the report, you can have your hair cut any style you like, from a Gyp the Blood to a truckdriver's marcelle.

If the keeper hands anything to a prisoner, or vice versa, there must be a "thank you." If a request is made there must be a "please." Here are some of the other reforms as specially observed by State Commissioner Leon C. Weinstein:

"The unfortunate irritability of inmates and their sulen, discouraged appearance have been overcome by encouraging happiness, hope and sense of justice, self-respect and personal pride.

"Letter writing is allowed weekly. "Baseball, basketball, football, medicine ball and other athletic sports are engaged in daily. "Musical concerts have been inaugurated.

The inmates of the institution have been given a voice in the Prison Observer, the first newspaper ever published by the inmates of the New York County Penitentiary.

Instead of the old lock step, the men march from the industrial shops to their cell blocks to the tunes of a band composed of their fellow prisoners.

The Canadian Comes to Port Here With Pilot House Riddled by Descartes's Solid Shot.

There was plenty of ventilation in the pilot house of the steamship Canadian, under charter to the Munson Line, which arrived in port to-day from Martinique. Four large holes in the walls of the structure marked where two round shot, fired from a cannon on board the French cruiser Descartes, passed through on Jan. 14 as the Canadian was entering the harbor of Port de France.

At the time her ally ship bored holes through her pilot house the Canadian was flying the British flag. The reason the commander of the French cruiser gave for firing was that he thought the Canadian some sort of a disguised German vessel, as he had never seen anything like her before.

The Canadian is from the Great Lakes and is built along the lines of the lake boats, with the pilot house away forward. She was brought down the St. Lawrence shortly before the war and put into trade between Newfoundland and the West Indies, under British registry.

Capt. Mitchell said on his arrival to-day that as he was heading for the Port de France harbor he saw signals flying on the Descartes two miles away, but could not make them out. Then he saw a puff of smoke on the war vessel, and a shot passed through the pilot house. Two more puffs of smoke sent shot over the vessel, and then a second shot burst through the pilot house just above the captain's head.

By this time he had stopped the ship. A boat crew boarded the Canadian and after close inspection of the papers permitted her to proceed. The French officer in charge of the boat's crew said that when his people first sighted the Canadian they thought it was a big German submarine cruising on the surface.

The proposed treaty provides chiefly: American supervision of finances and collection of customs; American supervision of payment of public debt, inquiry into validity of existing debts and regulation of construction of future debts.

Polishing of the Republic by a constitutional, at first headed by American officers.

Intervention by the United States if necessary to preserve order and for guaranteeing the territorial integrity and independence of Hayti.

Development of Haytian resources under American auspices.

Department of Justice Reported to Be Surprised at Midvale-Cambria Deal.

WASHINGTON, Feb. 9.—It is probable that the Department of Justice will investigate the recent merger of the Midvale Steel and Ordnance Company and the Cambria Steel Company. If information in the hands of the department is correct, that the companies are engaged in different lines of manufacture, no steps will be taken for dissolving the combination.

Officials of the department have been looking for a combination between the Lackawanna Steel Company, the Youngstown Sheet and Tube Company, and the Cambria Company, and were promised a full description of the proposed merger. Just why this agreement did not develop, the Department of Justice is unable to understand, and it is equally surprised that the Midvale Company and the Cambria Steel Works should have decided to consolidate.

Repeal and Donner Syndicates Made Big "Clean-Up."

PITTSBURGH, Feb. 9.—Pittsburghers it became known here to-day, made a big "clean-up" in the Cambria-Midvale Steel deal. The Repeal Syndicate's profits are estimated at \$4,000,000. The Donner Syndicate's profits are placed at about \$3,000,000.

OPPOSES ABOLITION OF NAUTICAL SCHOOL

Dr. Finley Also Against Returning Training Ship Newport to Government.

ALBANY, Feb. 9.—Dr. John H. Finley, State Commissioner of Education, does not favor the abolition of the State Nautical School and the return to the Federal Government of the training ship Newport on which each year about 100 boys are trained for seamanship at an expense of \$60,000 to the State.

In his annual message to the Legislature, Gov. Whitman suggested that the school be abolished, as one of the features of his economy programme. The Governor has told persons interested in the school that the results gained, in his opinion, do not warrant the expenditure of so large a sum.

One of Dr. Finley's assistants has been investigating the nautical school and a report in favor of its continuation will be made public by the Commissioner in a few days.

FAITH LOST WITH SHOES.

Samaritan Says Stranger He Fed Took Cash.

John Korp of No. 58 Watts Street attended the Bowery Mission Sunday evening and came out overflowing with love for his fellowmen. He soon lost it. Korp met Emilio Gatto, eighteen years old, living in Harrison Avenue, Brooklyn.

Gatto said he was a barber out of work and hungry. Korp fed him, which took almost all of his bankroll and then shared his bed with the stranger. So says that when he got up Monday Gatto was gone and \$7.50 in money, two pairs of shoes and two suits of clothes.

At 4 A. M. to-day Korp met Gatto at Prince Street and the Bowery and had Detective Haskins take him to Police Headquarters.

"And to think," said Korp, "that no one says he doesn't know me."

FRENCH CRUISER SHOTS HOLES IN BRITISH SHIP MISTAKEN FOR GERMAN

The Canadian Comes to Port Here With Pilot House Riddled by Descartes's Solid Shot.

There was plenty of ventilation in the pilot house of the steamship Canadian, under charter to the Munson Line, which arrived in port to-day from Martinique. Four large holes in the walls of the structure marked where two round shot, fired from a cannon on board the French cruiser Descartes, passed through on Jan. 14 as the Canadian was entering the harbor of Port de France.

TEIPER INDICTED FOR MURDER OF HIS MOTHER

Accused, Who Had Been Committed to Jail on Same Charge, Rearraigned and Pleads Not Guilty.

BUFFALO, Feb. 9.—An indictment charging John Edward Teiper with murder in the first degree was returned by the Erie County Grand Jury to-day. Teiper is charged with the slaying of his mother, Mrs. Agnes M. Teiper, who, with his brother, Frederick C. Teiper, was killed on the Orchard Park Highway the night of Jan. 30.

Teiper, who was committed to jail last week on the same charge, was rearraigned to-day and pleaded not guilty.

After Teiper had entered his plea of not guilty his counsel reserved the right to withdraw the plea after examining the indictment to protect his privilege of demurring to it. He then made an effort to proceed with the examination of the prisoner under the charge made by District Attorney Dudley before Justice Marcus sitting as a committing Magistrate on Monday, but Mr. Dudley objected, and the Court consented to the withdrawal of this former charge.

SENATE PASSES BILL FOR NAVY YARD NEEDS

Measure Providing \$600,000 for Mare Island and Brooklyn New Goes to President.

WASHINGTON, Feb. 9.—The Senate to-day passed the resolution making \$600,000 available for reequipping the Mare Island and Brooklyn Navy Yards, and the bill increasing by \$500 the entrance class at Annapolis Naval Academy.

The measure passed the house last Monday and now goes to President Wilson for his approval.

The Naval Academy bill was passed without debate. The resolution to provide for improvement of the navy yards was discussed briefly by Senator Lodge. He declared the United States had wanted a year and a half in beginning construction of battleships Nos. 41 and 42.

"We need increases in the navy, and we need them now," said Senator Lodge. "We can build battleships just as rapidly as Germany or England or any other nation, but we waste too much time after they are authorized."

LINCOLN, ESCAPED SPY, REPORTED CROSSING SEA

London Has Rumor He Is on Way to Germany, but Believes He Can't Escape.

LONDON, Feb. 9.—It is rumored here that Ignatius T. Lincoln, former spy, who escaped from custody in Brooklyn last month, is now on the Atlantic, en route to Europe.

If this report be true, as seems probable, in consideration of its source, it is hardly likely Lincoln will succeed in escaping the British cordon.

Lincoln's wife is said to be on her way to Germany, too.

Greece to Get American Petroleum.

ATHENS (via Paris), Feb. 9.—The British Minister and the director of Greek customs have signed an agreement whereby vessels carrying American petroleum will be permitted to reach Greece unmolested, provided previous notices of sailings are given to Great Britain.

THE MAY MANTON FASHIONS

Striped taffeta is one of the smartest of all materials for the spring gown. Here it is shown in white and black, with trimming of plain black. It is very smart, it is very attractive and in the height of style while at the same time it is essentially practical for the taffeta gown can be worn for many different occasions, under the coat upon the street as well as within doors.

The blouse shows the side closing suggestive of the favorite Russian idea, and is made with a square neck and sailor collar that are much liked. The long sleeves, with their flaring cuffs, are fashionable, but, no doubt, for the warm weather the shorter ones will be wanted, and these can be cut off. The skirt given a panel at the front, which allows peculiarly effective use of stripes and is laid in plaits at the back. This last feature is something of a revival and a welcome one, for it provides flare and fullness and gives a becoming line at the back.

The pockets are inserted on curved lines and are extended to form trimming on the skirt. Sometimes these pockets are lined with a really brilliant color, as American beauty red on gray or bright blue on black and white, to give the picturesque note that is so dominant in many ways. Silk is much worn this season, and it suggests itself at once for gowns of this sort, but there are of course other suitable materials. There are lovely crepes that combine silk and wool threads that are practical as well as handsome. All the points are being much used. Wool veils is to be worn in the spring, and in addition the model could be copied in washable materials.

For the medium size the blouse will require 3 1/2 yards of material 27 inches wide, 1 1/2 yards 46 or 2 yards 44. For the skirt will be needed 7 yards of material 27 inches wide, 5 1/2 yards 36 or 44. The blouse pattern 8712 is cut in sizes from 34 to 42, and the skirt 8745 in sizes from 24 to 34 waist measure.

No. 8725—(With busting line and added seam allowance) BLOUSE WITH SIDE CLOSING, 34 to 42 bust measure.

No. 8648—(With busting line and added seam allowance) SKIRT WITH PANEL FRONT, 24 to 34 waist measure.

How to Obtain These Patterns.

MRS. ASTOR'S GUESTS PLAN NATIONAL MOVE TO HELP IMMIGRANTS

Council to Unite Agencies for Americanizing Aliens Considered at Luncheon.

A movement is under way to-day to organize a National Council of the public and private agencies engaged in Americanizing immigrants. It has among its sponsors such women as Mrs. Vincent Astor, who is to be a patroness to-night of a dance and reception at Stuyvesant Casino for the benefit of the League of Foreign-Born Citizens. The league will start a membership campaign at the dance, which Mrs. Astor will attend.

Mrs. Astor opened her home at No. 122 East Seventy-eighth Street yesterday for the third and last of a series of "social service" luncheons, at which the National Council movement was started.

The plan is based on an appeal issued by the National Conference on Immigration and Americanization, held in Philadelphia Jan. 19 and 20.

Mrs. Astor's guests included Herman Bernstein, editor of the Day; Abraham L. Elkus, Paul U. Kellogg of the Survey, N. B. Woodworth, Sons of the American Revolution; Miss Helen Winkler, Council of Jewish Women; Dr. J. L. Magnes, Jewish Community; Miss Mary Ingham, Monday Conference and Civic Club, Philadelphia; Dr. Woods Hutchinson, Harry Goddard Leach, Secretary of the American Scandinavian Society; Dr. Albert Shiels, Board of Education; Miss Ruth Robinson, People's Institute; Gaylord S. White, United Settlement Association; Morris D. Waldman, United Hebrew

Women Who Drowned Her Two Children Gets Life Sentence.

NEW HAVEN, Conn., Feb. 9.—Mrs. Sophie Krause of Milford, who recently drowned her two small children in a reservoir, pleaded guilty of murder in the second degree in the Superior Court yesterday, and Judge Reed sentenced her to life imprisonment. It was believed at the time of the tragedy that she was insane, but alienists reported to the court that her mind was normal.

Charities: Mrs. Sidney C. Borg, Jesse I. Straus, Sophie Irene Loeb and Miss Frances A. Kellor and Miss Esther E. Lape of the National Americanization Committee.

Dr. Jane Robbins of the Jacob A. Rills Neighborhood Settlement, Mrs. Marian K. Clark of the Bureau of Industries and Immigration of the State Department of Labor, Mrs. Frederick Nathan of the Consumers' League, Miss Emma C. Low of the Child Welfare Board, Mrs. Frederick Schaff of the Home Education Division, United States Bureau of Education, and Miss Edith Jardine of the International Institute, Y. W. C. A., were among the speakers. Others were Max Kohler of the Baron de Hirsch Fund, Nathaniel Phillips, League of Foreign Born Citizens; Irving Lipitch, Hebrew Sheltering and Immigrant Aid Society; Benjamin Tuska, Educational Alliance, and Col. Harry Cutler of the Rhode Island Immigration Commission.

The National Council is being urged because so wide a demand is being made for the education of immigrants in English and citizenship. The great variety of agencies at work has created a need for standardization of methods, and for the establishment of something like a clearing house where needs that cannot be met by one agency may be assigned to another that can meet them.

Most of the speakers agreed that education proper ought to be taken care of by the Federal Government, which fixes the standards of citizenship.

The falling off in immigration because of the war has given a precious opportunity, the speakers at the luncheon said, for establishing the National Americanization Council. They plan to have it in operation by the time immigration again increases in volume, and as a first step toward this all the agencies now engaged in the work will be canvassed as to their willingness to join.
